The largest growers of water lilies and aquatic plants on Long Island.

Water Lilies AND AQUATIC PLANTS

SHIPPING TERMS

WATER PLANTS may be shipped safely at any time. Shipments will be made at as early a date as experience has shown us is advisable for your particular locality, unless otherwise instructed.

TROPICAL WATER LILIES are shipped from May 25th on.

AQUARIUM PLANTS, when ordered alone, are shipped at once.

ALL WATERPLANTS are shipped by Parcel Post unless customer specifies some other carrier. If Express is specified shipment will be made charges collect.

Items other than waterplants will be shipped by Express.

Terms: Orders are accepted only when accompanied by funds sufficient to cover price of goods.

WE PAY POSTAGE WITHIN THE UNITED STATES ON ALL RETAIL ORDERS
OVER \$5.00 FOR WATER PLANTS ONLY; OTHERWISE ADD 50c FOR POSTAGE

For Customers who are able to visit the Nursery we
plant the Lilies in containers for a nominal charge, and
all you have to do is place them in your pool.

WE INVITE YOU TO VISIT OUR NURSERIES

We are located on the North Shore of Long Island approximately 35 miles from New York City, easily accessible by auto or train, for customers on Long Island, New York City and Westchester, etc. Our Nursery is on Waterside Avenue, Northport, one mile North of Route 25A.

Open Sundays, Holidays and Evenings during APRIL, MAY and JUNE.

OUR GUARANTEE

Our Fair Dealing over the 50 years we have been in business offers you the best guarantee possible.

We grow the finest plants possible, ship excellent quality tubers that are true to name and pack each order carefully so it will arrive in good condition.

Any information desired will be given freely by us.

If material does not arrive in good condition, be sure your claim is noted by the carrier upon arrival and notify us promptly.

We must be notified not later than July 10th, should any plant fail to grow, we will gladly replace it providing the old lily tuber is returned and postage is paid on replacement.

Complete Tub Garden of

Water Lilies & Aquatics

Anyone with a garden can grow water lilies easily . . . and at low cost! Our complete tub gardens enable you to set up an exquisite Lily Pool in a matter of minutes . . . and to grow the loveliest aquatic plants in your own garden. Water features are always garden focal points. Glamourize your garden with a Lily Pool this year!

\$7.50

HERE'S WHAT YOU GET A Complete Water Garden for only \$7.50

1 PERMANIZED TUB. 22" diameter. Medium gauge, rust-resistant galvanized metal, heavily coated with black asphaltum inside and out!

1 EXOTIC WATER LILY PLANT. Your choice of white, pink or blue. Superior plants from our own aquatic gardens!

2 UMBRELLA PALMS. Very graceful fan-shaped foliage! Extremely attractive!

3 WATER HYACINTHS. Lovely orchid-like blooms add exotic charm to the aquatic garden!

3 OXYGENATING PLANTS. Purify water with life-giving oxygen . . . help other plants grow better!

8 SNAILS. Sleek little scavengers that devour dirt and waste . . . help keep water clean and fresh.

HERE'S HOW YOU SET 'EM UP!

Select a sunny location. Imbed tub about 11" deep. Fill tub with 5" or 6" of good top soil. Plant water lily, umbrella palms and oxygenating plants, water poppies and parrot feathers. Cover surface of soil with 1/2" layer of sand. Fill tub with water. Place floating plants and snails in water! And that's all. Your tub garden is ready to flourish!

EXTRA! LARGE TUB GARDENS In Limited Quantities!

Rectangular tubs of identical construction 24" x 45" x 12" — nearly twice the capacity of the 22" round tub gardens! Includes everything offered in the \$7.50 garden PLUS 3 continuous-blooming! Water Poppies that float on water surface AND 2 bunches of hardy, exotic Parrot Feather water plants! A magnificent central feature for any garden!

all for only \$14.50

ST. LOUIS WATER LILY

Bright yellow tropical Water Lily with star shaped blooms averaging 10 inches in diameter. Sturdy, prolific bloomer

First of the yellow flowers. Has beautiful mottled foliage. A wonderful addition to your pool.

\$4.00

Tropical Lilies provide twenty-four hours of continuous bloom each day from settled weather in spring until fall. They adapt themselves to the largest Pools or the smallest Tub-Gardens, the size of the flowers alone being affected depending on the amount of soil and water surface provided. We ship only mature, potted plants, many already in flower which produce fully developed plants giving a wealth of bloom in a surprisingly short time after setting out. Tropical Lilies are of two distinct types. The Day Blooming Lilies whose flowers open with the sun and close at evening and the Night Blooming Lilies whose flowers open in the afternoon and remain open until late the following morning. For constant succession of bloom the Tropical Lilies are unexcelled.

18 PLANTS — 6 VARIETIES

\$3.50

Water Lilies

Hardy Lilies are unexcelled for planting in natural ponds, lakes or in still pools along a river or stream bank, and will beautify the most

unattractive bit of water provided they are not planted in too deep water or near a cold inlet. Once established so that the crowns will not be injured by freezing or ice, they become a source of permanent beauty. They may be grown in the smallest of pools and in tubs.

The flowers embrace all the colors from purest white, delicate shell-pink, deep rose pink to rich reds, yellows and combinations of red and yellow. There is however, no blue Hardy Lily. This color is in tropical varieties only.

Yellows . . .

SUNRISE. One of the first Lilies to open in the morning. Free bloomer, 8 to 10 inches in diameter and stands well above water. Clear sulphur yellow color. Blooms early Spring to late Fall. Superb variety. Stands crowding; does well in any depth of water... Each \$3.50

MARLIAC CHROMATELLA. Charming canary yellow, 4 to 6 inches across. Leaves green mottled with brown. Free bloomer. Advise dividing every few years. Each \$3.00

MARLIAC CHROMATELLA

Changeable Colors . . .

These unusual Water Lilies add a novel touch to the Lily Pool. They change color from day to day. The first day they flower into a rich yellow, the shade of the color of the bloom deepens progressively until it reaches a deep bronze. These attractive and useful Lilies are available in the following colors only.

PAUL HARIOT. Flowers are large, cup-shaped, light yellow, delicately shaded copper-red. Each \$3.50

COMANCHE. Large flowers of rich apricot on opening, changing to dark copper-orange with red as flower ages. Leaves olive-green, flecked with brown. Each \$3.50

AURORA. Flowers creamy yellow first day, changing to dark red by third day. giving variety of color. Each \$2.50

Reds . . .

ATTRACTION. One of the most beautiful Lilies, often 8 to 10" across. On opening it is a garnet red with almost white sepals and stamens of rich mahogany, tipped with yellow; no pool complete without it. Each \$4.00

GLORIOSA. Deep carmine rose, becoming deep red with age. Blooms continuously; 5 to 6" in diameter. Ideal for either pool or tub. Each \$3.50

Whites . . .

ODORATA GIGANTEA. Very large, pure white, very fragrant. Flowers often 6" across. A free bloomer. . . . Each \$1.00

ODORATA MINOR. Especially valuable for tub culture. Flowers 2 to 3" in diameter. Suitable for edge of ponds. Each \$1.25

MARLIAC ALBIDA. Large size, pure white flowers with yellow stamens. Blooms entire season continuously. Sepals are tinted with pink, leaves deep green above and red beneath. Each \$2.50

GLADSTONE. Largest of white Lilies, requiring considerable space for best development. Flowers are pure white, cup-shape with golden yellow stamens. Flowers are 6 to 8" across. . . Each \$2.50

TUBEROSA MAXIMA. Excellent for naturalization. Fast growing. . . Each \$2.00

Pinks . . .

EUGENIA DE LAND. Flowers are extra large, very beautiful color of deep pink. Petals are pointed and incurved with golden yellow stamens. Excellent bloomers, producing very large flowers, often 7 to 8 inches in diameter. Each \$2.75

HELEN FOWLER. Deep pink with lighter center. Flowers are borne well above the water. Flowers not so large but blossoms continuously. . . . Each \$2.00

PINK OPAL. Full-petaled, cup-shaped flowers of deep rich pink. . . Each \$2.00

JAMES BRYDON. Cup-shaped flower of rich, rose crimson, 5 to 6 inches in diameter. Early bloomer and rapid grower. This versatile lily is adaptable to either tub or pool culture. . . . Each \$3.75

CONQUEROR. This is one of the most beautiful Lilies and produces an immense flower similar in character to the Attraction. A robust grower—strong, healthy plants. Each \$3.50

GLADSTONE

MARLIAC CARNEA. Large, flesh pink, deeper toward center. Free flowering, with large, purplish red leaves, changing to deep green. Each \$2.25

MARLIAC ROSEA. Similar to Carnea, except that it is a deep rose pink. Flowers 3 to 5 inches. Each \$3.00

ROSE AREY. Considered the most desirable of the fragrant Lilies. Brilliant pink. Petals are pointed and incurved with golden yellow stamens. Excellent bloomers, producing large flowers 7 to 8 inches. Each \$3.00

Director **GEORGE T. MOORE**

Blues . . .

MRS. ED WHITAKER. One of the newer hybrid Lilies and largest of day bloomers. Lavender blue on first opening, getting paler after the flower ages. Leaves beautifully mottled and streaked with dark red. Opens at 6:30 A.M., closing as late as 7:30 P.M. No other Lily remains open so long a time. Flowers about 10" across. Each \$3.50

BAGDAD. The leaves are marked with patches of dark reddish brown. The flowers are pale Wisteria blue, very fine bloomer. . Each \$3.50

DAUBEN. Very light, small blue Lily, especially adapted to tub culture. Will sprout additional Lilies from the center of its leaves. Each \$2.50

JUDGE HITCHCOCK. Large, cup-shaped flowers. Color, violet blue. Stamens are gold and tipped with blue. Abundant bloomer. Each \$3.50

PENNSYLVANIA (Blue Beauty)

This is one of the most popular blue Lilies. The flowers are large and bloom from Spring until frost Each \$3.50

Pinks . . .

GENERAL PERSHING. Unique flower opening at 7 A.M. and closing at 7 P.M. Very fragrant, measuring from 8"-10" across. Flowers are borne about 12" above water. Buds dark green striped with dark purple. A fine bright color. Each \$3.00

MRS. C. W. WARD. This is a deep, rosy pink flower, with golden yellow stamens tipped with pink. The flowers are from 8 to 10 inches across. . . Each \$3.00

PERSIAN LILAC. This pink Lilac-colored Lily has a large number of petals. The foliage is clear light green. A very beautiful and desirable Lily Each \$3.50

DAY BLOOMING WHITE

ISABELLE PRING. Large pure white. The color always remains pure white. A very good Water Lily. Each \$3.25

MRS. GEO. H. PRING. Best pure white tropical Lily. Producing large, fragrant white flowers. Each \$3.00

TROPICAL NIGHT BLOOMING

A beautiful display of brilliant color—should have a place in every pool. The designation "Night Bloomer" is a trifle misleading; the flowers close at midday, or when the sunlight becomes strongest, and opens again in the afternoon. On cloudy days of late summer, when the weather becomes cooler, they sometimes remain open through the twenty-four hours.

DENTATA SUPERBA (JUNO). Pure white Lily, 10 to 12 inches across, with yellow stamen. Leaves are large, deep, glossy green. Flowers freely throughout summer. Stands well above water. Very noticeable at night. Ea. \$2.50

MISSOURI. The best night blooming white. Flowers early. Flowers usually 21 in. in diameter. The leaves are coppery brown when small but develop into deep green as they age. Ea. \$3.00

OMARANA. Flowers from 8 to 12" across. Beautiful rosy pink. Stamens deep orange red. One of best and free flowering of all night bloomers. Ea. \$2.50

BISSET. Petals extremely wide, beautiful pink. One of best growers. . . Ea. \$2.50

DEVONSHIRE. Deep red, about 6 to 8 inches across. Open 7 to 8 P.M., closes 10 A.M. Ea. \$3.00

ZANZIBARIENSIS ROSEA. A fragrant, deep pink, 6 to 8 inches across. Opens earlier in the morning than some of the other varieties. Each \$3.00

Zanzibariensis Rosea

TROPICAL

Water Lilies

Purples . . .

DIRECTOR GEORGE T. MOORE. Rich purple flowers are borne in great profusion. Often bears 8 to 10 flowers at a time. Each \$3.50

PANAMA PACIFIC. Rich, rosy red, on first opening. When fully opened, changes to deep, reddish purple with yellow stamens. One of the most popular and most promising of day bloomers. Also throws young plants which frequently flower while attached to parent plant. Each \$3.00

ZANZIBARIENSIS (African Purple Lily). Good-sized flowers, 6 to 8 inches across. Each \$3.00

AUGUST KOCH. Flowers are 7 to 8 inches in diameter and rise from 8 to 10 inches out of water. Petals are pale Wisteria violet. Excellent variety, blooms freely. Produces young plant from the surface of the leaves. One of the easiest of the tropicals to grow. Each \$3.00

MIDNIGHT. Resembles a double flowering aster—dark violet NEW excellent bloomer. Each \$4.00

SHALLOW WATER AND BOG PLANTS

ARROWHEAD, GIANT (*Sagittaria Sagittifolia*). Distinctive leaves shaped as name indicates, standing 1 to 3 ft. above; flowers freely; hardy

The Care of your Water Lilies!

Hardy Lilies may be planted any time from the 1st of April until the middle of August.

Tropical Lilies may be planted when the temperature averages seventy degrees about May 25th.

Water lilies come into flower early in the season and bloom until frost.

Concrete pools are best left full of water and covered with boards and straw. Hardy Water Lilies will winter in the pool if the water does not freeze deeply, but Tropical Lilies are best considered as annuals and purchased new each year. Hardy Lilies growing in boxes may be taken into a cool basement until Spring. Care to be taken not to allow them to dry out.

Running water is neither necessary nor desirable and may retard the development of Water Lilies by keeping the temperature too low.

New concrete pools should be filled with water and drained at least four (4) times before any fish or plants are introduced.

Planting instructions are attached to every Water Lily tuber shipped.

PANAMA PACIFIC

Rich, rosy red, on first opening. When fully opened, changes to deep reddish purple with yellow stamens. One of the most popular and most promising of day bloomers. Also throws young plants which frequently flower while attached to parent plant. Highly recommended for either pool or tub culture.
